

# Young Engineer of the Year 20 07

the Army, Navy, and Marine Corps, the U.S. Army corps of Engineers, U.S. Army Environmental Command, and the U.S. Environmental Protection Agency, and other government and regulatory agencies. These projects have included CERCLA Preliminary Assessments and Site Inspection activities; remedial investigations; multi-media sampling; and Phase I site assessments. Denise was nominated for Young Engineer of the Year by the Society of American Military Engineers (SAME), of which she has been a member for the past 11 years. According to SAME she has been a key member of the Baltimore post for several years, serving as the Young Member Director and Committee Chair, and currently as a member of the scholarship committee. Ms. Tegtmeier has been very active in planning and execution of the committee's fund raising events. She has also been a member of the Student Mentoring Committee, giving presentations to local colleges about the opportunities in the engineering field, working closely with Long Reach High School in Columbia, MD, the high school the Baltimore Post has "adopted", and organizing volunteer judges and mentors for SAME/ASCE's Future Cities engineering challenge.

*Ms. Denise Tegtmeier, EIT* is an Environmental Project Manager for Malcolm Pirnie, Inc., with over 9 years of experience in munitions response, hazardous waste, and other environmental restoration programs. Ms. Tegtmeier serves as Project Manager and provides technical support for projects for both federal and industrial clients. Her work has included projects for
